Summary

MSc student in Informatics and Multimedia Engineering (ISEL), seeking Junior Software Engineer roles. Skilled across Java, Python and modern frameworks like Flutter, with a creative drive for building fun, meaningful projects that make a real difference.

Technical Projects

JobAgent: Job Search Automation Pipeline

- Discovers jobs via REST APIs and web scraping across 6+ job boards; scores against personal preferences and maintains a deduplicated company registry.
- Generates tailored CVs, emails, and cover letters in English and Portuguese for approved jobs; backs up drafts to Google Drive with draft management.
- Built with Python, unit-tested (154+ tests), and uses Claude for content generation, workflow automation, and a live Job Search Pulse dashboard.

I-Crash: Stock Management System for Emergency Trolleys (Bachelor's Final Project)

- Development of a cross-platform application with Flutter and Dart, tested on Android, Windows, and Web.
- Backend implementation with Django, REST APIs, and PostgreSQL.
- Integration of barcode, QR code, and Data Matrix scanning for the registration and expiry-date monitoring of clinical consumables.

Professional Experience

OhMyBerry

Store Manager

Jun. 2025 – Present

Lisbon, Portugal

- Own daily store operations end-to-end, including inventory control, stock replenishment, and workspace organisation.
- Manage customer service and sales, maintaining consistent standards in a fast-paced retail environment.

Education

Lisbon School of Engineering (ISEL)

MSc in Informatics and Multimedia Engineering

Sep. 2025 – Present

Lisbon, Portugal

Lisbon School of Engineering (ISEL)

BSc in Informatics and Multimedia Engineering

Sep. 2018 – Jan. 2025

Lisbon, Portugal

- Final Degree Project: I-Crash – Stock Management System for Emergency Trolleys.

Digital Skills

Programming Languages: Python, Java, JavaScript, TypeScript, Dart, Kotlin, C++, SQL, C#, PHP, R, Prolog

Frameworks & Technologies: React, Angular, Flutter, Django, REST APIs, Docker, Google Cloud, Firestore, MySQL, PostgreSQL, Java Servlets, JSP, Unity, Unreal Engine

Libraries: Bootstrap, MediaPipe, OpenCV, Pandas, Scikit-learn, TensorFlow

Tools: Git, Android Studio, Figma, IntelliJ IDEA, PyCharm, CLion, Eclipse, NetBeans, Visual Studio, Jupyter Notebook, Blender

Markup & Data Formats: CSS, HTML, XHTML, JSON, CSV, XML, XPath, XSLT, FXML, LaTeX, Tailwind CSS

Additional Tools: MS Excel, MS Project, StarUML, Processing, RStudio, Cisco Packet Tracer, GNS3, Wireshark

Certifications

Anthropic Academy – Claude 101 & Claude Code 101

Languages

Portuguese: Native

English: C1

Volunteering

Cultura Social – Collaboration in school summer holiday programmes in 2017, 2018 and 2019
